FUEL INCREASE MASTER TARIFF

FUEL SURCHARGE

All charges for line haul transportation resulting from rates and/or charges, named in GPTC's Private Tariffs, Contracts or Pricing Agreements, are hereby increased as provided herein. The net line haul charge will be subject to a fuel surcharge as provided below. The amount of the fuel surcharge will be determined by the U. S. National Average Fuel Index as published by the U.S. Department of Energy. The current Index may be obtained by calling 1-202-586-6966.

The index is announced each Monday and the fuel surcharge will be adjusted up or down if necessary each Tuesday based on the above referenced index.

\$3.650	\$3.699	\$0.66 per mile
\$3.700	\$3.749	\$0.67 per mile
\$3.750	...	See NOTE A

The reported price will be rounded to the nearest whole cent when applying the formula shown above.

NOTE A--In the event the price per gallon for fuel should equal or exceed \$3.75 per gallon, then the fuel surcharge would be increased \$0.01 per mile for each incremental increase of \$0.05 per gallon, beginning at \$3.75 per gallon.

FOR EXAMPLE:

When the fuel price is at least \$3.750 per gallon, but not more than \$3.799 per gallon, the fuel surcharge will be \$0.68 per mile.

When the fuel price is at least \$3.800 per gallon, but not more than \$3.849 per gallon, the fuel surcharge will be \$0.69 per mile.

Etc.
